

KOSSAN GROUP COVID-19 SCREENING UPDATES

MALAYSIA, Selangor, 22 December 2020

KOSSAN Group (“the Company”) wishes to inform on the Company’s ongoing COVID-19 screening updates. The Company has since then also addressed the matter in a follow-up announcement made in accordance to Bursa Malaysia requirements:

1. The Company has on its corporate voluntary exercise begun undergoing a group-wide COVID-19 screening programme since 4 December 2020, targeting more than 8,000 employees at all nine (9) plant premises and three (3) corporate premises.
2. As the group-wide screening updates is of a progressive nature, we are working closely with the relevant authorities, namely the Ministry of Health (MOH) and the local councils, and the reporting of official COVID-19 figures will be done by the MOH. On the Company’s group-wide exercise, there have been in total 990 detected cases as at 21 December 2020 at one of our plant premises in the Klang district and we are in full cooperation with the MOH and the local councils in our cohesive efforts in mitigating and containing the pandemic from further widespread.
3. On the Company’s part, the employees in the affected plant premise are still undergoing quarantine and isolation, whilst the plant premise is undergoing an extension of closure expected to be until 30 December 2020 for further containment and prevention of the widespread of the pandemic.

Once again, we would like to assure all interest parties that the Company views the pandemic and public health situations seriously, and the health and safety of all our employees are of utmost concern.
