

INTOUCH® Project Smile Volume #3

INTOUCH WITH THE FUTURE

by Craig Kannan

Project Smile is one of Kossan International Sdn Bhd's (KISB) initiatives to develop, sustain, and perceive a good relationship between our internal and external community.

Project Smile was initiated in 2013 and it continues making beneficial contributions to society today.

The aim of Project Smile is to develop future leaders that can confront the world effectively and efficiently. Nevertheless, society at large and the greater good are still a priority.

KISB believes that for the company to be sustained in the long term, it must create value for its own staff, shareholders and also for society. Through Project Smile, KISB takes a step towards the outside world and contributes to those in need.

Small Hands, Wide Smiles

The children at the pediatric ward of Public Hospital Tengku Ampuan Rahimah were given a pleasant surprise visit by Kossan's enthusiastic volunteers. The objective of the visit was to spread the joy and Christmas cheer to the children at the ward to relieve them a moment of their day of medical hardship.

Kossan volunteers danced through the pediatric ward singing Christmas carols and ringing tambourines to bring out a lively cheer. A clown entertained the kids by making fun and colorful balloon shaped objects upon their request. The young and brave patients were then treated to a visit by the jolly old Santa who then accompanied the Kossan volunteers to serenade the group with some joyful Christmas carols.

The final event for the day was the one that brought the most smiles to the children, the highly anticipated gift giving. Thanks to our kind and generous friends at Kiwanis, a total of 100 gifts were handed out to the delighted children. The highly successful visit goes to show a lot can be achieved with a little time and kindness.

"If you're in the luckiest one per cent of humanity, you owe it to the rest of humanity to think about the other 99 per cent."

Warren Buffett

Christmas Cheer for all

It was a great day at Pui Ying Hall as Kossan volunteers welcomed orphanage children from Philea Home and Padmasambhava Children Loving Association (PCLA) to celebrate the season of giving, Christmas.

The children were treated to Christmas carols by Kossan's caroling team along with Santa dancing around, adding to the Christmas cheer. The children from the homes provided a wish list of things they really wanted such as school bags, shoes, calculator, stationeries and Kossan volunteers hunted for these items to surprise them in their Christmas gifts.

Opening presents can work up an appetite, so right after the gifts were opened, a scrumptious lunch was served. As happy faces savored the tasty food, the group was treated to a magic show that was full of mystery and excitement. Then the kids participated in friendly games and everyone ended up dancing at the end of the day.

It was a happy day for all those involved especially the children. The smiles from the little faces make us remember how easy it is to spread joy and happiness around with minimal effort.

"Christmas is not just a time for festivity and merry making. It is more than that. It is a time for the contemplation of eternal things. The Christmas spirit is a spirit of giving and forgiving."

J. C. Penney
